

## SPIRITUALITY SCHOLARS NETWORK (SSN)

*A time to reflect  
A space to share*

In this era of fast knowledge, fast information, fast interaction, **The Conversational** is a gathering of scholars of spirituality who take a moment to share and discuss ideas together.

Academics, professionals, erudites, artists, imagineers, designers – and many more diverse minds – join in a meaningful conversation around deep thoughts, visions, theories and practices.

**The Conversational** is open to a wide range of topics and interests relating in the broadest sense possible to spirituality in terms of spirit, soul, mind and consciousness.
